Commercial Excellence

Your peace of mind is our blueprint. As a fully licensed and insured contractor in Massachusetts, Irias Iron Works offers complete protection for every project, from custom railings to large structural installations. Our certifications guarantee compliance, quality, and structural integrity. Trust the certified experts to deliver your vision.

1) Custom Railings (Interior & Exterior)

Railings, Handrails, Guardrails

We design, fabricate, and install custom metal railings for both residential and commercial properties. Our expertise includes modern minimalist designs, ornate decorative ironwork, stainless steel cable railing systems. All installations meet strict Massachusetts building safety codes.

2) Architectural Staircases

Staircases fabrication & Installation

We design, fabricate, and install custom metal railings for both residential and commercial properties. Our expertise includes modern minimalist designs, ornate decorative ironwork, stainless steel cable railing systems. All installations meet strict Massachusetts building safety codes.

3) Security Gates & Access control

Privacy and Security

Protecting your property with high-quality, custom-built security gates. We provide automatic driveway gates, pedestrian access gates, and highly durable commercial security enclosures. Our designs blend seamlessly with your property while providing optimal defense.

4) Perimeter Fences & Enclosures

Fencing Solutions

We offer design and installation of robust metal fences for residential privacy, property definition, and commercial security. Options include decorative iron, aluminum, and durable steel fencing solutions, tailored to your aesthetic and security requirements.

5) Certified Fire Escape

Fire Escapes Experts

Compliance is paramount. We specialize in the repair, reinforcement, inspection, and new construction of code-compliant steel fire escapes. Our certified team ensures all work meets Massachusetts and local municipal fire safety regulations, guaranteeing public safety.

6) Structural Support

Structural Needs

Iron Works provides welding and fabrication for non-cosmetic structural needs, including mezzanine fabrication, custom steel beams, structural reinforcement, and bracing. Our engineers work with your plans to deliver guaranteed load-bearing components.

7) Specialty & Restoration

Custom Solutions

Beyond our core offerings, we take on unique custom projects, including historic ironwork restoration, custom furniture/fixtures, and one-off art installations. Contact us to discuss your specialized metal fabrication needs.
